

398 86-524-XA PETITION FOR SPECIAL EXCEPTION

TO THE ZONING COMMISSIONER OF BALTIMORE COUNTY:

The undersigned, legal owner(s) of the property situate in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Special Exception under the Zoning Law and Zoning Regulations of Baltimore County, to have the herein described property for a mobile home park in A.D.R. 3.5.2000.

Property is to be posted and advertised as prescribed by Zoning Regulations.

I, or we, agree to pay expenses of above Special Exception advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

I/We do solemnly declare and affirm under the penalties of perjury, that I/we are the legal owner(s) of the property which is the subject of this Petition.

398 86-524-XA PETITION FOR ZONING VARIANCE

TO THE ZONING COMMISSIONER OF BALTIMORE COUNTY:

The undersigned, legal owner(s) of the property situate in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Variance from Section 414.4 to reduce required seventy-five (75) feet setback from boundary lines to a minimum of 10 feet.

feet setback from boundary lines to a minimum of 10 feet from Section 414.5 to reduce space between mobile homes from the required twenty-five (25) feet to fifteen (15) feet.

of the Zoning Regulations of Baltimore County to the Zoning Law of Baltimore County; for the following reasons: (Indicate hardship or practical difficulty)

Boundary lines are with similarly developed property and the required setback would necessitate a total reconfiguration of roads and access points as well as disrupt the continuity of the developments.

Compliance with the required mobile home separation setback would limit the varying styles of homes allowable in the park which has been designed to provide residents with choices as to style and appearance.

Property is to be posted and advertised as prescribed by Zoning Regulations.

I, or we, agree to pay expenses of above Variance advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

I/We do solemnly declare and affirm under the penalties of perjury, that I/we are the legal owner(s) of the property which is the subject of this Petition.

RE: Item No. 398 - Case No. 86-524-XA
Petitioner: Lodge Forest Partnership
Petitions For Special Exception and Zoning Variance

Gentlemen:

The Zoning Plans Advisory Committee and the County Review Group (CRG) have both reviewed the plans submitted with the above-referenced petition. The comments from the CRG have been added to those of the Zoning Plans Advisory Committee and are part of this case file. They are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commission with recommendations as to the suitability of the requested zoning.

This petition was accepted for filing on the date of the enclosed filing certificate and a hearing scheduled accordingly.

Very truly yours,

James E. Dyer
Chairman
Zoning Plans Advisory Committee

JUNE 2, 1986
(CRITICAL AREA)

RE: Zoning Advisory Meeting of May 6, 1986
Item # 398
Petitioner: LODGE FOREST PARTNERSHIP
Location: CENTER OF DUNDRE VILLAGE GRACE

The Division of Current Planning and Development has reviewed the subject petition and offers the following comments. The items enclosed below are applicable:

- There are no site planning factors requiring comment.
- County Review Group meeting is required.
- County Review Group meeting was held and the minutes will be forwarded by the Bureau of Public Services.
- This site is part of a larger tract; therefore it is defined as a subdivision. The plan must show the entire tract.
- A record plat will be required and must be recorded prior to issuance of a building permit.
- The access to this site is not satisfactory.
- The circulation on this site is not satisfactory.
- The parking arrangement is not satisfactory.
- Parking calculations must be shown on the plan.
- This property contains soils which are defined as wetlands, and development on these soils is prohibited.
- Construction in or alteration of the floodplain is prohibited under the provisions of Section 22-52 of the Development Regulations.
- Development of this site may constitute a potential conflict with the Baltimore County Master Plan.
- The proposed Development Plan was approved by the Planning Board on 1/13/86.
- The property is located in a deficient service area as defined by Bill 178-79. No building permit may be issued until a Reserve Capacity Use Certificate has been issued. The deficient service is:
- The property is located in a traffic area controlled by a non-level intersection as defined by Bill 178-79, and as conditions change the intersection may become more limited. The Civic Services Areas are established annually by the County Council.

THIS SITE IS LOCATED IN THE CHESAPEAKE BAY CRITICAL AREA. ADDITIONAL COMMENTS WILL BE PROVIDED BY THE COMPREHENSIVE PLANNING DIVISION.

THE CRG PLAN #1-301 (K/A PHASE II-BISCAYNE BAY VILLAGE) WAS APPROVED CONDITIONALLY ON 5/18/86.

Subject: Biscayne Bay Village
Case No. 86-524-XA

Dear Mr. Jablon:

The zoning case on the aforementioned property granted September 26, 1989 permitted a Special Exception for a trailer park within a DR 3.5 zone for the Phase II area of the project, along with variance reductions in boundary setback of 12.5 feet in lieu of the 75 feet required, a paving reduction to 25 feet in lieu of 30 feet and a trailer to trailer setback reduction of 15 feet in lieu of 25 feet. The approved plans were for a 174 unit mobile home park of which 24 units have been constructed.

The First Amended CRG Plan revised the unit mix between double wide and single wide units along with minor layout modifications. The total number of units is reduced to 164 units.

It is our opinion that these revisions are within the spirit and intent of the variances and Special Exception Order. The first CRG refinement was approved by the Development Review Committee on February 26, 1998 for the revised layout.

We request that you review the enclosed Plan, the zoning case file, and render your decision on this matter.

REVISED DEVELOPMENT PLAN: 5/1/86

DISTRICT: 15th Election District

V - Compliance
O - Non-Compliance

1. Include the zoning history of the property on the plan:

Zoning Case No. 83-59-XA - Docket and History to Date

2/26/82 Petition filed for Lodge Forest Partnership before the Board of Appeals for conditional reclassification from D.R.16 and D.R.5.5 to D.R.3.5 and Special Exception for a trailer park and variances to Sections 414.4: to permit a 15' setback to a boundary line in lieu of the required 75' and from Section 414.5 to permit a setback of 15' between trailers in lieu of the required 25'.

10/4/83 Ordered by Board of Appeals that (a) reclassification from D.R.16 and D.R.5.5 to D.R.3.5 be GRANTED; (b) that special exception for a trailer park be GRANTED, subject to final approval and compliance with all CRG requirements; (c) that the variance to reduce the required 75' setback from boundary lines to 15' be DENIED, but in lieu thereof a variance from the required 75' setback to a 60' setback be GRANTED; (d) a variance to reduce the space between trailers from 25' to 15' be GRANTED.

11/7/83 No appeal; case closed.

5/2/84 CRG approved an amended plan with 100 fewer dwellings that significantly reduced the density and increased the wetlands setbacks.

5/23/84 Board of Appeals ordered that the amended plan be received into the case.

6/1/84 Chesapeake Bay Critical Areas Commission legislation enacted. Interim protection S.8-1813. Case reopened for amended plan.

6/25/84 Case reopening for an amended plan appealed to the Circuit Court by the People's Counsel for non-compliance with S.2-58.1(M) of the Baltimore County Code.

7/25/84 Circuit Court remanded case to Board of Appeals.

CRG COMMENTS (continued)

May 8, 1986

The preceding docket and history should be updated with any C.R.G. or zoning case highlights and be made a part of the plan.

2. The requested variances conflict with Note #3, please clarify.

3. Indicate with a bold line the boundary between Phase I and Phase II and the restricted area as shown on the revised, amended site plan in the previous zoning case. If the development conflicts with these documented boundaries, please justify this change on the plan.

4. The proposed Community Building should meet all of the requirements of S.V.B.2 (C.M.D.P.) and it should be noted if it is for the use of residents only.

5. Key the typical lot layouts to the individual lots and indicate which lots would not meet or would be an exception to the typical layout.

6. Add permit numbers and issued date for Phase I to the history in Comment No. 1.

7. The trailer pads should be shown prior to building permit or development plan approvals. There was confusion at these times in the approval process for Phase I.

Not even a note?

W. CARL RICHARDS, JR.
Zoning Coordinator

CRG MEETING OF MAY 8, 1986

Biscayne Bay Village - Phase II

1. Peak SWM is not required for this site due to proximity to tidal water.

* I assume that the 4 wetland areas shown on the plan are for water quality control. As shown, they will intercept all the proposed impervious area in this Phase.

We will defer to Planning regarding design requirements for water quality control. I will provide technical advice as necessary.

2. First floor elevations must be 11.2 or greater.

* Revised plan of 4/21/86 eliminates a number of units + one of the 4 wetland areas. Because of this, portions of 4 proposed roads will not be directed to the wetland areas for water quality control.

COMMENTS ARE AS FOLLOWS:

Soil percolation tests are required; a minimum of two test are required within a designated 10,000 square foot sewage disposal reserve area. For further information regarding these requirements, contact this office at 494-2762.

Soil percolation test have been conducted. Revised plans, must be submitted prior to approval of plat, are not required and the plat can be approved as submitted. Contact this office for more complete information, 494-2762.

Public sewers, public water, must be utilized and/or extended to serve the property.

A Hydrogeological Study and Environmental Effects Report for this subdivision, must be submitted, is not required, is incomplete and must be revised, has/have been reviewed and approved.

A Water Appropriation Permit Application, must be submitted, has been submitted. NOTE: Greater than 33 lots necessitates a public hearing with Water Resources Administration as part of the permit process.

It is recommended the plan, be approved as submitted, be approved as submitted subject to the following conditions noted: on the attached memo dated 4-25-86

It is recommended this plan not be approved at this time. See revisions and/or comments.

REVISIONS AND/OR COMMENTS:

BALTIMORE COUNTY, MARYLAND

Subject: County Review Group Comments

From: Dept. of Recreation and Parks

Project Name: Biscayne Bay Village Preliminary Plan

Project Number: 86080 Development Plan

Location: Eastern Avenue Extended Final Plat

Districts: 15, C-5 CRG Plan XX

Zoned: DR 3.5

COMMENTS: Revised plan dated May 1, 1986

1. Local Open Space is required.
2. The L.O.S. shall be titled to the developer or his assigns and shall be maintained and protected as per the L.O.S. Manual.
3. In order to best protect the Critical Area Buffer (Environmental Area) the L.O.S. should be configured as a narrow band along the perimeter of the developed area rather than the 1.94A+ parcel shown.
4. The Department of Recreation and Parks feels that title to the Critical Area Buffer (Environmental Area) should eventually be transferred to Baltimore County in order to follow the Dundee-Saltwater Creek Master Plan and protect the adjacent Marshy Point Environmental Area. If ownership of the area in question should not be by Baltimore County, guarantees must be in place that no development or alteration of this land will be permitted and that the area shall be maintained by the developer in a clean, sanitary and attractive condition.

Biscayne Bay Village

SUBJECT: Eastern Avenue Extended

CRG 5/8/86

Baltimore County does not provide residential collection to mobile home parks, since these are considered commercial ventures. However, as roads are shown there would be no problem in providing front street collection to 30' through streets.

Cul de sacs at Clear Lake, Cypress and Tamarac Trail if built to county specs would pose no collection problems to any commercial hauler.

Note--The revised plan showing dead end streets, rather than through streets, would be acceptable for refuse collection by commercial haulers as long as built to county specs for turnarounds and roads.

more County Zoning Regulations requiring 25 feet between each unit be granted to allow modern day mobile homes with "tip outs" to be situated on each lot should the owner of same so desire.

The entire parcel is now undeveloped with municipal water, sewerage and storm water drains presently existing. The property is either abutting or very near to a tidal estuary known as Saltpeter Creek.

IN THE MATTER OF THE APPLICATION OF LODGE FOREST PARTNERSHIP FOR REZONING FROM D.R. 16 and D.R. 5.5 TO D.R. 3.5; FOR SPECIAL EXCEPTION FOR A MOBILE HOME PARK; AND FOR A VARIANCE FROM SECTIONS 414.4 and 414.5 OF THE BALTIMORE COUNTY ZONING REGULATIONS 785 DUNDUE VILLAGE CIRCLE 785' E. OF EASTERN AVENUE 15th DISTRICT

OPINION

This case comes before the Board of Appeals on a petition for a reclassification of some 62.5 acres of land from D.R. 16 and D.R. 5.5 to D.R. 3.5, a request for a special exception to allow this parcel to be developed as a Mobile Home Park, and also a request for variances from Sections 414.4 and 414.5 of the Baltimore County Zoning Regulations. The subject property is located on the northeast side of Dundee Village Circle 785 feet east of Eastern Avenue in the Fifteenth Election District of Baltimore County. Parts of three days of hearings were required for presentation of all the testimony and evidence pertinent to this hearing.

As the situation now exists, the Petitioner has 54.2 acres of land zoned D.R. 16 and 8.5.2 acres zoned D.R. 5.5 upon which some 900.2 residential units could be erected. He is requesting D.R. 3.5 zoning for the entire 62.5 acres, which would permit the erection of some 220.2 residential units. He is also, however, requesting a special exception to permit the development of this parcel as a mobile home park containing some 420.2 residential units. The variances requested have to do with portions of the proposed mobile home park that Petitioner's plat show to be closer to the boundary line than the 75 feet required in Section 414.4 of the Baltimore County Zoning Regulations, and the request that a variance from Section 414.5 of the Baltimore County Zoning Regulations requiring 25 feet between each unit be granted to allow modern day mobile homes with "tip outs" to be situated on each lot should the owner of same so desire.

The entire parcel is now undeveloped with municipal water, sewerage and storm water drains presently existing. The property is either abutting or very near to a tidal estuary known as Saltpeter Creek.

LODGE FOREST PARTNERSHIP - #R-83-59-XA

As a result of this, the Baltimore County Health Department and the Bureau of Environmental Services have evidenced concern about the possible effect this proposal would have upon this estuary and its associated tidal wet lands. Testimony and evidence were presented to this Board for Petitioner by James F. Knott, property owner, who described in detail his proposed use of the property and entered the latest plat showing same.

Mr. Barry Gossett, a partner in the Williams Estates who are the owners of a large mobile home park containing some 391 units developed in 1971, the newest mobile home park in Baltimore County, testified as to the need for more such parks and the practicality of the requested variance from Section 414.5 of the Baltimore County Zoning Regulations.

Mrs. Alberta Pugh, representing the Middle River Council of Civic Associations, testified that the Council she represents was in favor of this proposal rather than the now allowable 900.2 residential units. She also stated that Baltimore County should be especially vigilant in its protection of the nearby wet lands.

Captain Joseph Kelly, Baltimore County Fire Department, testified that the proposal meets all Baltimore County Fire Department standards.

Charles H. Shinham, a civil engineer, testified at length as to the present condition of the property, the various elevations above sea level thereon, and the effect this proposal, in his opinion, would have on the estuary and wet lands.

All of the above testified that, in their opinion, all the requirements of Section 502.1 of the Baltimore County Zoning Regulations have been complied with. This basically concluded the direct testimony in support of Petitioner's case. The Board, in this Opinion, will not attempt to summarize this lengthy testimony but will allow the record to so speak, however, we will note that all of this testimony and evidence was carefully evaluated in this Opinion and in the Order to follow.

Baltimore County presented Ms. Janice Outen, a water quality planner, who expressed concern about the effect the proposal could have on the estuary and wet lands. She especially noted the proximity of the property to the estuary and wet lands, the importance of protecting these

LODGE FOREST PARTNERSHIP - #R-83-59-XA

assets and recommended a 100 foot buffer between development and the wet lands. The testimony of Paul J. Solomon, Head, Environmental Planning Section, Office of Planning and Zoning for Baltimore County, was received in letter form dated July 19, 1983, and reiterated in detail the above noted concerns. This basically concluded all the testimony in this case.

After careful consideration of all this testimony and evidence, the Board must now address the specific issues before it. The first of these issues is the request for reclassification from D.R. 16 and D.R. 5.5 to D.R. 3.5. This request for a reduction in density is of itself unusual, the normal request being from lesser to greater density. The Board must, however, find evidence of change in the neighborhood or error in the present classification to grant the change.

There is ample evidence of need for this type housing, both from testimony and from the Master Plan, but need is not a criterion authorizing the requested change. To charge that the County Council erred in not reclassifying this particular parcel to allow for a mobile home park when the need exists virtually County wide is unrealistic, especially when the said parcel was not an issue during the 1980 map process. There is, however, significant evidence before this Board showing a change in the neighborhood. The mere fact that this request is before the Board evidences change in the neighborhood. The Petitioner now has, by right, the ability to construct some 900.2 units on his holdings but instead requests the right to construct only 400.2 units. This certainly indicates that the need for D.R. 16 density units, usually town houses or garden apartments, that existed when the D.R. 16 density was granted no longer exists, and the testimony today indicated a total lack of available moderate cost mobile home space in the area, all existing mobile home parks being fully occupied and having "waiting lists" for prospective tenants. These two conditions, when considered together, constitute change in the character of the neighborhood since the D.R. 16 zoning was applied, and this criterion grants this Board the right to grant the requested reclassification. The Board is also cognizant of the fact that this reduction in density is advantageous to Baltimore County due to the fact that it reduces the traffic potential

and reduces the demands placed upon the water and sewer services already present. For all these reasons, the Board is of the opinion that the request for the change in zoning classification from D.R. 16 and D.R. 5.5 to D.R. 3.5 should be granted and will so order.

Accompanying the petition for reclassification is a request for a special exception for a mobile home park or as referred to in Section 414 of the Baltimore County Zoning Regulations, a "Trailer Park". If all the requirements of Section 502.1 are complied with, the Board has no choice but to grant the special exception. If, however, any section is not complied with, the Board has no choice but to deny the requested special exception.

Only Section 502.1.a appears to be in question. Baltimore County evidences extreme concern over the detrimental effect the proposal, as presented, would have on the estuary and associated wet lands. The evidence indicated that no matter whether 900 units would be built in clusters or separately, a great amount of impervious surface from roofs, parking areas and other paved areas will result. Likewise, if the parcel is developed into 400 individual home sites a great amount of impervious surface from roofs, driveways, patios, etc. will be generated. If this special exception be granted, all these considerations will be evaluated in the CRG process prior to allowing development. Bill No. 56-82, Article IV, Section 22-37-DEVELOPMENT POLICIES - Sub-section (D) states:

"(B) THESE REGULATIONS ARE INTENDED TO PROTECT AND PROMOTE PUBLIC HEALTH, SAFETY AND WELFARE AND TO ENSURE PROVISION FOR PUBLIC FACILITIES, SERVICES AND AMENITIES. TO THIS END, THESE REGULATIONS ARE DESIGNED AND INTENDED TO INSURE THE SAFETY, ADEQUACY AND CONVENIENCE OF PROPOSED PROVISIONS FOR THE FOLLOWING: "

Then Sub-sub-section (4) of the above quoted Sub-section (B) states:

"(4) PREVENTION OF ENVIRONMENTAL DEGRADATION AND PROMOTION OF ENVIRONMENTAL ENHANCEMENT, INCLUDING ADEQUACY OF LANDSCAPING AND ENERGY CONSERVATION MEASURES, AND OF PROTECTION OF FLOODPLAINS, STEEP SLOPES, WATERSHEDS, WETLANDS, VEGETATION, OTHER NATURAL FEATURES, AND HISTORICAL SITES OR AREAS."

Bill No. 56-82 specifically addresses all these concerns. Any alterations, changes, or restrictions deemed necessary by any Baltimore County authority having expertise in these specific matters must be incorporated onto the

final plat before recordation of said plat, and the development must comply with this final recorded plat. With this consideration in mind, the Board is persuaded that all requirements of Section 502.1 will be met and will, therefore, grant the requested special exception.

There is also before this Board two requests for variances, one from Section 414.4 and one from Section 414.5. Section 307 of the Baltimore County Zoning Regulations defines the conditions under which variances may be granted or denied. The request for variance from Section 414.4 is to reduce the setback requirement from 75 feet to a minimum of 15 feet. The Board can find no practical difficulty or unreasonable hardship to allow the minimum of 15 feet. A careful study of the proposed plat shows that the purpose of this variance is merely to increase the available number of sites. There are, however, several points on the plat at which the 75 foot requirement is only reduced to 60 feet, more or less. To maintain the 75 foot requirement at these small points does result in practical difficulty and unreasonable hardship, and the sixty foot setback would grant relief without substantial injury to public health, safety and general welfare. The Board will, therefore, grant a variance from Section 414.4 from the required setback of 75 feet to 60 feet, and will so order.

The request for a variance from the requirement of Section 414.5 of 25 feet between trailers to 15 feet is somewhat unusual as it is not a definitive request, but merely a general relief requested to allow a mobile homeowner to purchase a "tip out" for his trailer if he so desires. To deny this option to the homeowner would be a practical difficulty and an unreasonable hardship, and since the proposed sites exceed County area standards and since at least 15 feet must still be maintained between trailers, the granting of this relief would not create substantial injury to the public health, safety or general welfare and, therefore, the Board will grant the requested variance from Section 414.5.

ORDER

For the reasons set forth in the foregoing Opinion, it is this 4th day of October, 1983, by the County Board of Appeals, ORDERED that the reclassification from D.R. 16 and D.R. 5.5 to D.R. 3.5 petitioned for be and the same is hereby GRANTED; and it is

FURTHER ORDERED that the special exception for a Trailer Park petitioned for, be and the same is hereby GRANTED, subject to final approval and compliance with all CRG requirements; and it is

FURTHER ORDERED that the variance from Section 414.4 of the Baltimore County Zoning Regulations petitioned for, to reduce the required 75 foot setback from boundary lines to 15 feet be and the same is hereby DENIED, but in lieu thereof a variance from the required 75 foot setback to a 60 foot setback be and the same is hereby GRANTED; and it is

FURTHER ORDERED that the variance from Section 414.5 of the Baltimore County Zoning Regulations petitioned for to reduce the space between trailers from the required 25 feet to 15 feet, be and the same is hereby GRANTED.

Any appeal from this decision must be in accordance with Rules B-1 thru B-13 of the Maryland Rules of Procedure.

COUNTY BOARD OF APPEALS OF BALTIMORE COUNTY

William T. Hackett, Chairman

William R. Evans

Joanne L. Sudor

IN RE: PETITION FOR SPECIAL EXCEPTION AND ZONING VARIANCE
Center of Dundee Village Circle
1920' SE of the center of Eastern Avenue Extended
Lodge Forest Partnership
Petitioner

BEFORE THE
DEPUTY ZONING COMMISSIONER
OF BALTIMORE COUNTY
Case No. 86-524-XA

The Petitioner herein requests a special exception to build a mobile home park in a D.R. 3.5 zone and zoning variances to reduce the required 75-foot setback from boundary lines to a minimum of 50 feet, and to reduce space between mobile homes from the required 25 feet to 15 feet.

Counsel for the Petitioner proffered information on the checkered history of the site while the Petitioner has sought approval for a mobile home park and variances relative to the placement of individual mobile homes. That history has included the October 1983 Baltimore County Board of Appeals' decision to grant a reclassification and special exception for a total of 400 units in Phase I and II, subject to County Review Group (CRG) approval. In the spring of 1984, CRG approved a plan for 330 units. The Chesapeake Bay Critical Area legislation became effective, retroactive to March 1, 1984, thereby sending the project plans back to CRG. Phase I has been approved by the Board of Appeals and by CRG as to the requirements of the County and the Critical Area legislation and is currently under construction. Phase II received conditional approval on May 18, 1986 from CRG and is the subject of the instant case.

Phase II is a planned and integral part of the mobile home park now constructed. The request for a 50-foot setback from a boundary line will be utilized only for six (6) mobile homes and only for a distance of approximately 450 feet along the southwestern boundary of the site. The request for a variance of 15 feet between mobile homes will be utilized only for the purpose of expanded room additions (tip-outs). The Baltimore County Department

ORDER RECEIVED FOR FILING
DATE 10/16/83
BY [Signature]

of Recreation and Parks and the Office of Planning are in the final stages of determining the locations of the local open space and the critical area buffer before the anticipated final CRG approval of plans.

There were no Protestants.

Pursuant to the advertisement, posting of property and public hearing, in the opinion of the Deputy Zoning Commissioner, strict compliance with the Baltimore County Zoning Regulations (BCZR) would result in practical difficulty and unreasonable hardship upon the Petitioners, the requirements of Section 502.1 have been met, and the health, safety and general welfare of the community will not be adversely affected, and, therefore, the special exception and variances should be granted.

Therefore, IT IS ORDERED by the Deputy Zoning Commissioner of Baltimore County this 3rd day of July, 1986 that the herein request for special exception to allow for the construction of a mobile home park in a D.R. 3.5 zone and zoning variances to reduce the required 75-foot setback from boundary lines to a minimum of 50 feet and to reduce space between mobile homes from the required 25 feet to 15 feet, in accordance with the plan submitted herein prepared by George W. Stephens, Jr. and Associates, Inc., revised June 9, 1986, identified as Petitioner's Exhibit 1, as modified by the final CRG approved plan, are GRANTED, from and after the date of this Order, subject to the following restriction:

- 1) There shall be a minimum distance of less than 25 feet between trailers only when required for an expanded room addition (tip-out). Any expanded room addition for any trailer may not exceed 10 feet wide by 22 feet long, and the total width of the trailer and tip-out shall not exceed 24 feet.

PETITIONS FOR SPECIAL EXCEPTION AND ZONING VARIANCES

15th Election District
Case No. 86-524-XA

LOCATION: Center of Dundee Village Circle, 1920 feet Southeast of the Center of Eastern Avenue Extended

DATE AND TIME: Tuesday, June 24, 1986, at 10:30 a.m.

PUBLIC HEARING: Room 106, County Office Building, 111 W. Chesapeake Avenue, Towson, Maryland

The Zoning Commissioner of Baltimore County, by authority of the Zoning Act and Regulations of Baltimore County, will hold a public hearing:

Petition for Special Exception for a mobile home park in a D.R. 3.5 Zone

Petition for Zoning Variances to reduce the required 75 feet setback from boundary lines to a minimum of 50 feet and to reduce space between the mobile homes from the required 25 feet to 15 feet

Being the property of Lodge Forest Partnership as shown on plat plan filed with the Zoning Office.

In the event that this Petition(s) is granted, a building permit may be issued within the thirty (30) day appeal period. The Zoning Commissioner will, however, entertain any request for a stay of the issuance of said permit during this period for good cause shown. Such request must be received in writing by the date of the hearing set above or made at the hearing.

398 86-524-XA PETITION FOR SPECIAL EXCEPTION

TO THE ZONING COMMISSIONER OF BALTIMORE COUNTY:

The undersigned, legal owner(s) of the property situate in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Special Exception under the Zoning Law and Zoning Regulations of Baltimore County, to have the herein described property for a mobile home park in A.D.R. 3.5.2000.

Property is to be posted and advertised as prescribed by Zoning Regulations.

I, or we, agree to pay expenses of above Special Exception advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

I/We do solemnly declare and affirm under the penalties of perjury, that I/we are the legal owner(s) of the property which is the subject of this Petition.

398 86-524-XA PETITION FOR ZONING VARIANCE

TO THE ZONING COMMISSIONER OF BALTIMORE COUNTY:

The undersigned, legal owner(s) of the property situate in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Variance from Section 414.4 to reduce required seventy-five (75) feet setback from boundary lines to a minimum of 10 feet.

feet setback from boundary lines to a minimum of 10 feet from Section 414.5 to reduce space between mobile homes from the required twenty-five (25) feet to fifteen (15) feet.

of the Zoning Regulations of Baltimore County, to the Zoning Law of Baltimore County; for the following reasons: (Indicate hardship or practical difficulty)

Boundary lines are with similarly developed property and the required setback would necessitate a total reconfiguration of roads and access points as well as disrupt the continuity of the developments.

Compliance with the required mobile home separation setback would limit the varying styles of homes allowable in the park which has been designed to provide residents with choices as to style and appearance.

Property is to be posted and advertised as prescribed by Zoning Regulations.

I, or we, agree to pay expenses of above Variance advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

I/We do solemnly declare and affirm under the penalties of perjury, that I/we are the legal owner(s) of the property which is the subject of this Petition.

RE: Item No. 398 - Case No. 86-524-XA
 Petitioner: Lodge Forest Partnership
 Petitions For Special Exception and Zoning Variance

Gentlemen:

The Zoning Plans Advisory Committee and the County Review Group (CRG) have both reviewed the plans submitted with the above-referenced petition. The comments from the CRG have been added to those of the Zoning Plans Advisory Committee and are part of this case file. They are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commission with recommendations as to the suitability of the requested zoning.

This petition was accepted for filing on the date of the enclosed filing certificate and a hearing scheduled accordingly.

Very truly yours,

James E. Dyer
 Chairman
 Zoning Plans Advisory Committee

RE: Zoning Advisory Meeting of May 6, 1986
 Item # 398
 Petitioner: LODGE FOREST PARTNERSHIP
 Location: CENTER OF DUNDRE VILLAGE GRACE

The Division of Current Planning and Development has reviewed the subject petition and offers the following comments. The items enclosed below are applicable:

- There are no site planning factors requiring comment.
- County Review Group meeting is required.
- County Review Group meeting was held and the minutes will be forwarded by the Bureau of Public Services.
- This site is part of a larger tract; therefore it is defined as a subdivision. The plan must show the entire tract.
- A record plat will be required and must be recorded prior to issuance of a building permit.
- The access to this site is not satisfactory.
- The circulation on this site is not satisfactory.
- The parking arrangement is not satisfactory.
- Parking calculations must be shown on the plan.
- This property contains soils which are defined as wetlands, and development on these soils is prohibited.
- Construction in or alteration of the floodplain is prohibited under the provisions of Section 22-52 of the Development Regulations.
- Development of this site may constitute a potential conflict with the Baltimore County Master Plan.
- The proposed Development Plan was approved by the Planning Board on 1/13/86.
- The property is located in a deficient service area as defined by Bill 178-79. No building permit may be issued until a Reserve Capacity Use Certificate has been issued. The deficient service is:
- The property is located in a traffic area controlled by a non-level intersection as defined by Bill 178-79, and as conditions change the environmental impact by the County Council.

THIS SITE IS LOCATED IN THE CHESAPEAKE BAY CRITICAL AREA. ADDITIONAL COMMENTS WILL BE PROVIDED BY THE COMPREHENSIVE PLANNING DIVISION.

THE CRG PLAN #1-301 (K/A PHASE II-BISCAYNE BAY VILLAGE) WAS APPROVED CONDITIONALLY ON 5/18/86.

Towson, MD 21204

Subject: Biscayne Bay Village
Case No. 86-524-XA

Dear Mr. Jablon:

The zoning case on the aforementioned property granted September 26, 1989 permitted a Special Exception for a trailer park within a DR 3.5 zone for the Phase II area of the project, along with variance reductions in boundary setback of 12.5 feet in lieu of the 75 feet required, a paving reduction to 25 feet in lieu of 30 feet and a trailer to trailer setback reduction of 15 feet in lieu of 25 feet. The approved plans were for a 174 unit mobile home park of which 24 units have been constructed.

The First Amended CRG Plan revised the unit mix between double wide and single wide units along with minor layout modifications. The total number of units is reduced to 164 units.

It is our opinion that these revisions are within the spirit and intent of the variances and Special Exception Order. The first CRG refinement was approved by the Development Review Committee on February 26, 1998 for the revised layout.

We request that you review the enclosed Plan, the zoning case file, and render your decision on this matter.

BALTIMORE COUNTY, MARYLAND

SUBJECT: COUNTY REVIEW GROUP COMMENTS

DATE: May 8, 1986

FROM: ZONING OFFICE

PROJECT NAME: BISCAYNE BAY VILLAGE, PHASE II

PLAN: 3/28/85

LOCATION: NE/S of Dundee Village Circle,
E of Eastern Avenue Extended

REVISION PLAN: 5/1/86

DISTRICT: 15th Election District

V - Compliance
O - Non-Compliance

1. Include the zoning history of the property on the plan:

Zoning Case No. 83-59-XA - Docket and History to Date

2/26/82 Petition filed for Lodge Forest Partnership before the Board of Appeals for conditional reclassification from D.R.16 and D.R.5.5 to D.R.3.5 and Special Exception for a trailer park and variances to Sections 414.4: to permit a 15' setback to a boundary line in lieu of the required 75' and from Section 414.5 to permit a setback of 15' between trailers in lieu of the required 25'.

10/4/83 Ordered by Board of Appeals that (a) reclassification from D.R.16 and D.R.5.5 to D.R.3.5 be GRANTED; (b) that special exception for a trailer park be GRANTED, subject to final approval and compliance with all CRG requirements; (c) that the variance to reduce the required 75' setback from boundary lines to 15' be DENIED, but in lieu thereof a variance from the required 75' setback to a 60' setback be GRANTED; (d) a variance to reduce the space between trailers from 25' to 15' be GRANTED.

11/7/83 No appeal; case closed.

5/2/84 CRG approved an amended plan with 100 fewer dwellings that significantly reduced the density and increased the wetlands setbacks.

5/23/84 Board of Appeals ordered that the amended plan be received into the case.

6/1/84 Chesapeake Bay Critical Areas Commission legislation enacted. Interim protection S.8-1813. Case reopened for amended plan.

6/25/84 Case reopening for an amended plan appealed to the Circuit Court by the People's Counsel for non-compliance with S.2-58.1(M) of the Baltimore County Code.

7/25/84 Circuit Court remanded case to Board of Appeals.

Too Small
Can't readBISCAYNE BAY VILLAGE, PHASE II
CRG COMMENTS (continued)

May 8, 1986

The preceding docket and history should be updated with any C.R.G. or zoning case highlights and be made a part of the plan.

2. The requested variances conflict with Note #3, please clarify.

3. Indicate with a bold line the boundary between Phase I and Phase II and the restricted area as shown on the revised, amended site plan in the previous zoning case. If the development conflicts with these documented boundaries, please justify this change on the plan.

4. The proposed Community Building should meet all of the requirements of S.V.B.2 (C.M.D.P.) and it should be noted if it is for the use of residents only.

5. Key the typical lot layouts to the individual lots and indicate which lots would not meet or would be an exception to the typical layout.

6. Add permit numbers and issued date for Phase I to the history in Comment No. 1.

7. The trailer pads should be shown prior to building permit or development plan approvals. There was confusion at these times in the approval process for Phase I.

Not even a note?

W. CARL RICHARDS, JR.
Zoning Coordinator

WCR:hg

CRG MEETING OF MAY 8, 1986

Biscayne Bay Village - Phase II

1. Peak SWM is not required for this site due to proximity to tidal water.

* I assume that the 4 wetland areas shown on the plan are for water quality control. As shown, they will intercept all the proposed impervious area in this Phase.

We will defer to Planning regarding design requirements for water quality control. I will provide technical advice as necessary.

2. First floor elevations must be 11.2 or greater.

* Revised plan of 4/21/86 eliminates a number of units + one of the 4 wetland areas. Because of this, portions of 4 proposed roads will not be directed to the wetland areas for water quality control.

No. of Lots or Units: 4746
Total Acreage: Public
Water: Public
Sewer: Public

COMMENTS ARE AS FOLLOWS:

Soil percolation tests are required; a minimum of two test are required within a designated 10,000 square foot sewage disposal reserve area. For further information regarding these requirements, contact this office at 494-2762.

Soil percolation test have been conducted. Revised plans, must be submitted prior to approval of plat, are not required and the plat can be approved as submitted. Contact this office for more complete information, 494-2762.

Public sewers, public water, must be utilized and/or extended to serve the property.

A Hydrogeological Study and Environmental Effects Report for this subdivision, must be submitted, is not required, is incomplete and must be revised, has/have been reviewed and approved.

A Water Appropriation Permit Application, must be submitted, has been submitted. NOTE: Greater than 33 lots necessitates a public hearing with Water Resources Administration as part of the permit process.

It is recommended the plan, be approved as submitted, be approved as submitted subject to the following conditions noted: on the attached memo dated 4-25-86

REVISIONS AND/OR COMMENTS:

BALTIMORE COUNTY, MARYLAND

Subject: County Review Group Comments

Date: May 8, 1986

From: Dept. of Recreation and Parks

Project Name: Biscayne Bay Village Preliminary Plan

Project Number: 86080 Development Plan

Location: Eastern Avenue Extended Final Plat

Districts: 15, C-5 CRG Plan XX

Zoned: DR 3.5

COMMENTS: Revised plan dated May 1, 1986

1. Local Open Space is required.
2. The L.O.S. shall be titled to the developer or his assigns and shall be maintained and protected as per the L.O.S. Manual.
3. In order to best protect the Critical Area Buffer (Environmental Area) the L.O.S. should be configured as a narrow band along the perimeter of the developed area rather than the 1.94A+ parcel shown.
4. The Department of Recreation and Parks feels that title to the Critical Area Buffer (Environmental Area) should eventually be transferred to Baltimore County in order to follow the Dundee-Saltwater Creek Master Plan and protect the adjacent Marshy Point Environmental Area. If ownership of the area in question should not be by Baltimore County, guarantees must be in place that no development or alteration of this land will be permitted and that the area shall be maintained by the developer in a clean, sanitary and attractive condition.

FROM: Charles K. Weiss

Biscayne Bay Village

SUBJECT: Eastern Avenue Extended

CRG 5/8/86

Baltimore County does not provide residential collection to mobile home parks, since these are considered commercial ventures. However, as roads are shown there would be no problem in providing front street collection to 30' through streets.

Cul de sacs at Clear Lake, Cypress and Tamarac Trail if built to county specs would pose no collection problems to any commercial hauler.

Note--The revised plan showing dead end streets, rather than through streets, would be acceptable for refuse collection by commercial haulers as long as built to county specs for turnarounds and roads.

SUBJECT: C.R.G. Comments

PROJECT NAME: Biscayne Bay Village C.R.G. PLAN: X

PROJECT NUMBER & DISTRICT: 15C5 86080 DEVELOPMENT PLAN:

LOCATION: Eastern Ave. Exit RECORD PLAT:

There will need to be a clear sight area of at least 10 ft. behind the edge of paving for all proposed roads, with grading and clearing and no sight obstructions. This area needs to be shown on the standard detail and cross-section. Also, 250 ft. long sight lines need to be shown on the inside of the curve in the southeast corner of the property. The area between the sight line and the edge of paving needs to be cleared, graded, and kept free of sight obstructions, and needs to be shown on all future plans including the development plan.

more County Zoning Regulations requiring 25 feet between each unit be granted to allow modern day mobile homes with "tip outs" to be situated on each lot should the owner of same so desire.

The entire parcel is now undeveloped with municipal water, sewerage and storm water drains presently existing. The property is either abutting or very near to a tidal estuary known as Saltpeter Creek.

IN THE MATTER OF THE APPLICATION OF LODGE FOREST PARTNERSHIP FOR REZONING FROM D.R. 16 and D.R. 5.5 TO D.R. 3.5; FOR SPECIAL EXCEPTION FOR A MOBILE HOME PARK; AND FOR A VARIANCE FROM SECTIONS 414.4 and 414.5 OF THE BALTIMORE COUNTY ZONING REGULATIONS 785 DUNDEE VILLAGE CIRCLE 785' E. OF EASTERN AVENUE 15th DISTRICT

OPINION

This case comes before the Board of Appeals on a petition for a reclassification of some 62.5 acres of land from D.R. 16 and D.R. 5.5 to D.R. 3.5, a request for a special exception to allow this parcel to be developed as a Mobile Home Park, and also a request for variances from Sections 414.4 and 414.5 of the Baltimore County Zoning Regulations. The subject property is located on the northeast side of Dundee Village Circle 785 feet east of Eastern Avenue in the Fifteenth Election District of Baltimore County. Parts of three days of hearings were required for presentation of all the testimony and evidence pertinent to this hearing.

As the situation now exists, the Petitioner has 54.2 acres of land zoned D.R. 16 and 8.5.2 acres zoned D.R. 5.5 upon which some 900.2 residential units could be erected. He is requesting D.R. 3.5 zoning for the entire 62.5 acres, which would permit the erection of some 220.2 residential units. He is also, however, requesting a special exception to permit the development of this parcel as a mobile home park containing some 420.2 residential units. The variances requested have to do with portions of the proposed mobile home park that Petitioner's plat show to be closer to the boundary line than the 75 feet required in Section 414.4 of the Baltimore County Zoning Regulations, and the request that a variance from Section 414.5 of the Baltimore County Zoning Regulations requiring 25 feet between each unit be granted to allow modern day mobile homes with "tip outs" to be situated on each lot should the owner of same so desire.

The entire parcel is now undeveloped with municipal water, sewerage and storm water drains presently existing. The property is either abutting or very near to a tidal estuary known as Saltpeter Creek.

LODGE FOREST PARTNERSHIP - #R-83-59-XA

As a result of this, the Baltimore County Health Department and the Bureau of Environmental Services have evidenced concern about the possible effect this proposal would have upon this estuary and its associated tidal wet lands. Testimony and evidence were presented to this Board for Petitioner by James F. Knott, property owner, who described in detail his proposed use of the property and entered the latest plat showing same.

Mr. Barry Gossett, a partner in the Williams Estates who are the owners of a large mobile home park containing some 391 units developed in 1971, the newest mobile home park in Baltimore County, testified as to the need for more such parks and the practicality of the requested variance from Section 414.5 of the Baltimore County Zoning Regulations.

Mrs. Alberta Pugh, representing the Middle River Council of Civic Associations, testified that the Council she represents was in favor of this proposal rather than the now allowable 900.2 residential units. She also stated that Baltimore County should be especially vigilant in its protection of the nearby wet lands.

Captain Joseph Kelly, Baltimore County Fire Department, testified that the proposal meets all Baltimore County Fire Department standards.

Charles H. Shinham, a civil engineer, testified at length as to the present condition of the property, the various elevations above sea level thereon, and the effect this proposal, in his opinion, would have on the estuary and wet lands.

All of the above testified that, in their opinion, all the requirements of Section 502.1 of the Baltimore County Zoning Regulations have been complied with. This basically concluded the direct testimony in support of Petitioner's case. The Board, in this Opinion, will not attempt to summarize this lengthy testimony but will allow the record to so speak, however, we will note that all of this testimony and evidence was carefully evaluated in this Opinion and in the Order to follow.

Baltimore County presented Ms. Janice Outen, a water quality planner, who expressed concern about the effect the proposal could have on the estuary and wet lands. She especially noted the proximity of the property to the estuary and wet lands, the importance of protecting these

LODGE FOREST PARTNERSHIP - #R-83-59-XA

assets and recommended a 100 foot buffer between development and the wet lands. The testimony of Paul J. Solomon, Head, Environmental Planning Section, Office of Planning and Zoning for Baltimore County, was received in letter form dated July 19, 1983, and reiterated in detail the above noted concerns. This basically concluded all the testimony in this case.

After careful consideration of all this testimony and evidence, the Board must now address the specific issues before it. The first of these issues is the request for reclassification from D.R. 16 and D.R. 5.5 to D.R. 3.5. This request for a reduction in density is of itself unusual, the normal request being from lesser to greater density. The Board must, however, find evidence of change in the neighborhood or error in the present classification to grant the change.

There is ample evidence of need for this type housing, both from testimony and from the Master Plan, but need is not a criterion authorizing the requested change. To charge that the County Council erred in not reclassifying this particular parcel to allow for a mobile home park when the need exists virtually County wide is unrealistic, especially when the said parcel was not an issue during the 1980 map process. There is, however, significant evidence before this Board showing a change in the neighborhood. The mere fact that this request is before the Board evidences change in the neighborhood. The Petitioner now has, by right, the ability to construct some 900.2 units on his holdings but instead requests the right to construct only 400.2 units. This certainly indicates that the need for D.R. 16 density units, usually town houses or garden apartments, that existed when the D.R. 16 density was granted no longer exists, and the testimony today indicated a total lack of available moderate cost mobile home space in the area, all existing mobile home parks being fully occupied and having "waiting lists" for prospective tenants. These two conditions, when considered together, constitute change in the character of the neighborhood since the D.R. 16 zoning was applied, and this criterion grants this Board the right to grant the requested reclassification. The Board is also cognizant of the fact that this reduction in density is advantageous to Baltimore County due to the fact that it reduces the traffic potential

and reduces the demands placed upon the water and sewer services already present. For all these reasons, the Board is of the opinion that the request for the change in zoning classification from D.R. 16 and D.R. 5.5 to D.R. 3.5 should be granted and will so order.

Accompanying the petition for reclassification is a request for a special exception for a mobile home park or as referred to in Section 414 of the Baltimore County Zoning Regulations, a "Trailer Park". If all the requirements of Section 502.1 are complied with, the Board has no choice but to grant the special exception. If, however, any section is not complied with, the Board has no choice but to deny the requested special exception.

Only Section 502.1.a appears to be in question. Baltimore County evidences extreme concern over the detrimental effect the proposal, as presented, would have on the estuary and associated wet lands. The evidence indicated that no matter whether 900 units would be built in clusters or separately, a great amount of impervious surface from roofs, parking areas and other paved areas will result. Likewise, if the parcel is developed into 400 individual home sites a great amount of impervious surface from roofs, driveways, patios, etc. will be generated. If this special exception be granted, all these considerations will be evaluated in the CRG process prior to allowing development. Bill No. 56-82, Article IV, Section 22-37-DEVELOPMENT POLICIES - Sub-section (D) states:

"(B) THESE REGULATIONS ARE INTENDED TO PROTECT AND PROMOTE PUBLIC HEALTH, SAFETY AND WELFARE AND TO ENSURE PROVISION FOR PUBLIC FACILITIES, SERVICES AND AMENITIES. TO THIS END, THESE REGULATIONS ARE DESIGNED AND INTENDED TO INSURE THE SAFETY, ADEQUACY AND CONVENIENCE OF PROPOSED PROVISIONS FOR THE FOLLOWING: "

Then Sub-sub-section (4) of the above quoted Sub-section (B) states:

"(4) PREVENTION OF ENVIRONMENTAL DEGRADATION AND PROMOTION OF ENVIRONMENTAL ENHANCEMENT, INCLUDING ADEQUACY OF LANDSCAPING AND ENERGY CONSERVATION MEASURES, AND OF PROTECTION OF FLOODPLAINS, STEEP SLOPES, WATERSHEDS, WETLANDS, VEGETATION, OTHER NATURAL FEATURES, AND HISTORICAL SITES OR AREAS."

Bill No. 56-82 specifically addresses all these concerns. Any alterations, changes, or restrictions deemed necessary by any Baltimore County authority having expertise in these specific matters must be incorporated onto the

final plat before recordation of said plat, and the development must comply with this final recorded plat. With this consideration in mind, the Board is persuaded that all requirements of Section 502.1 will be met and will, therefore, grant the requested special exception.

There is also before this Board two requests for variances, one from Section 414.4 and one from Section 414.5. Section 307 of the Baltimore County Zoning Regulations defines the conditions under which variances may be granted or denied. The request for variance from Section 414.4 is to reduce the setback requirement from 75 feet to a minimum of 15 feet. The Board can find no practical difficulty or unreasonable hardship to allow the minimum of 15 feet. A careful study of the proposed plat shows that the purpose of this variance is merely to increase the available number of sites. There are, however, several points on the plat at which the 75 foot requirement is only reduced to 60 feet, more or less. To maintain the 75 foot requirement at these small points does result in practical difficulty and unreasonable hardship, and the sixty foot setback would grant relief without substantial injury to public health, safety and general welfare. The Board will, therefore, grant a variance from Section 414.4 from the required setback of 75 feet to 60 feet, and will so order.

The request for a variance from the requirement of Section 414.5 of 25 feet between trailers to 15 feet is somewhat unusual as it is not a definitive request, but merely a general relief requested to allow a mobile homeowner to purchase a "tip out" for his trailer if he so desires. To deny this option to the homeowner would be a practical difficulty and an unreasonable hardship, and since the proposed sites exceed County area standards and since at least 15 feet must still be maintained between trailers, the granting of this relief would not create substantial injury to the public health, safety or general welfare and, therefore, the Board will grant the requested variance from Section 414.5.

ORDER

For the reasons set forth in the foregoing Opinion, it is this 4th day of October, 1983, by the County Board of Appeals, ORDERED that the reclassification from D.R. 16 and D.R. 5.5 to D.R. 3.5 petitioned for be and the same is hereby GRANTED; and it is

FURTHER ORDERED that the special exception for a Trailer Park petitioned for, be and the same is hereby GRANTED, subject to final approval and compliance with all CRG requirements; and it is

FURTHER ORDERED that the variance from Section 414.4 of the Baltimore County Zoning Regulations petitioned for, to reduce the required 75 foot setback from boundary lines to 15 feet be and the same is hereby DENIED, but in lieu thereof a variance from the required 75 foot setback to a 60 foot setback be and the same is hereby GRANTED; and it is

FURTHER ORDERED that the variance from Section 414.5 of the Baltimore County Zoning Regulations petitioned for to reduce the space between trailers from the required 25 feet to 15 feet, be and the same is hereby GRANTED.

Any appeal from this decision must be in accordance with Rules B-1 thru B-13 of the Maryland Rules of Procedure.

COUNTY BOARD OF APPEALS OF BALTIMORE COUNTY

William T. Hackett, Chairman

William R. Evans

Joanne L. Sudor

IN RE: PETITION FOR SPECIAL EXCEPTION AND ZONING VARIANCE
Center of Dundee Village Circ.
1920' SE of the center of
Eastern Avenue Extended
Lodge Forest Partnership
Petitioner

BEFORE THE
DEPUTY ZONING COMMISSIONER
OF BALTIMORE COUNTY
Case No. 86-524-XA

The Petitioner herein requests a special exception to build a mobile home park in a D.R. 3.5 zone and zoning variances to reduce the required 75-foot setback from boundary lines to a minimum of 50 feet, and to reduce space between mobile homes from the required 25 feet to 15 feet.

Counsel for the Petitioner proffered information on the checkered history of the site while the Petitioner has sought approval for a mobile home park and variances relative to the placement of individual mobile homes. That history has included the October 1983 Baltimore County Board of Appeals' decision to grant a reclassification and special exception for a total of 400 units in Phase I and II, subject to County Review Group (CRG) approval. In the spring of 1984, CRG approved a plan for 330 units. The Chesapeake Bay Critical Area legislation became effective, retroactive to March 1, 1984, thereby sending the project plans back to CRG. Phase I has been approved by the Board of Appeals and by CRG as to the requirements of the County and the Critical Area legislation and is currently under construction. Phase II received conditional approval on May 18, 1986 from CRG and is the subject of the instant case.

Phase II is a planned and integral part of the mobile home park now constructed. The request for a 50-foot setback from a boundary line will be utilized only for six (6) mobile homes and only for a distance of approximately 450 feet along the southwestern boundary of the site. The request for a variance of 15 feet between mobile homes will be utilized only for the purpose of expanded room additions (tip-outs). The Baltimore County Department

ORDER RECEIVED FOR FILING
DATE 10/16/83
BY [Signature]

of Recreation and Parks and the Office of Planning are in the final stages of determining the locations of the local open space and the critical area buffer before the anticipated final CRG approval of plans.

There were no Protestants.

Pursuant to the advertisement, posting of property and public hearing, in the opinion of the Deputy Zoning Commissioner, strict compliance with the Baltimore County Zoning Regulations (BCZR) would result in practical difficulty and unreasonable hardship upon the Petitioners, the requirements of Section 502.1 have been met, and the health, safety and general welfare of the community will not be adversely affected, and, therefore, the special exception and variances should be granted.

Therefore, IT IS ORDERED by the Deputy Zoning Commissioner of Baltimore County this 3rd day of July, 1986 that the herein request for special exception to allow for the construction of a mobile home park in a D.R. 3.5 zone and zoning variances to reduce the required 75-foot setback from boundary lines to a minimum of 50 feet and to reduce space between mobile homes from the required 25 feet to 15 feet, in accordance with the plan submitted herein prepared by George W. Stephens, Jr. and Associates, Inc., revised June 9, 1986, identified as Petitioner's Exhibit 1, as modified by the final CRG approved plan, are GRANTED, from and after the date of this Order, subject to the following restriction:

- 1) There shall be a minimum distance of less than 25 feet between trailers only when required for an expanded room addition (tip-out). Any expanded room addition for any trailer may not exceed 10 feet wide by 22 feet long, and the total width of the trailer and tip-out shall not exceed 24 feet.

PETITIONS FOR SPECIAL EXCEPTION AND ZONING VARIANCES

15th Election District
Case No. 86-524-XA

LOCATION: Center of Dundee Village Circle, 1920 feet Southeast of the Center of Eastern Avenue Extended

DATE AND TIME: Tuesday, June 24, 1986, at 10:30 a.m.

PUBLIC HEARING: Room 106, County Office Building, 111 W. Chesapeake Avenue, Towson, Maryland

The Zoning Commissioner of Baltimore County, by authority of the Zoning Act and Regulations of Baltimore County, will hold a public hearing:

Petition for Special Exception for a mobile home park in a D.R. 3.5 Zone

Petition for Zoning Variances to reduce the required 75 feet setback from boundary lines to a minimum of 50 feet and to reduce space between the mobile homes from the required 25 feet to 15 feet

Being the property of Lodge Forest Partnership as shown on plat plan filed with the Zoning Office.

In the event that this Petition(s) is granted, a building permit may be issued within the thirty (30) day appeal period. The Zoning Commissioner will, however, entertain any request for a stay of the issuance of said permit during this period for good cause shown. Such request must be received in writing by the date of the hearing set above or made at the hearing.

PETITIONS FOR SPECIAL EXCEPTION AND ZONING VARIANCES
15th Election District
Case No. 86-524-XA

LOCATION: Center of Dundee Village Circle, 1920 feet Southeast of the Center of Eastern Avenue Extended
DATE AND TIME: Tuesday, June 24, 1986, at 10:30 a.m.
PUBLIC HEARING: Room 106, County Office Building, 111 W. Chesapeake Avenue, Towson, Maryland

The Zoning Commissioner of Baltimore County, by authority of the Zoning Act and Regulations of Baltimore County, will hold a public hearing: Petition for Special Exception for a mobile home park in a D.R. 3.5 Zone. Petition for Zoning Variances to reduce the required 75 feet setback from boundary lines to a minimum of 50 feet and to reduce space between the mobile homes from the required 25 feet to 15 feet.

Being the property of Lodge Forest Partnership, as shown on plat plan filed with the Zoning Office. In the event that this Petition(s) is granted, a building permit may be issued within the thirty (30) day appeal period. The Zoning Commissioner will, however, entertain any request for a stay of the issuance of said permit during this period for good cause shown. Such request must be received in writing by the date of the hearing set above or made at the hearing.

By Order Of
ARNOLD JABLON,
Zoning Commissioner
of Baltimore County
5913 June 5

* BASED ON SURVEY OF SHORELINE BY THE BALTIMORE COUNTY DEPARTMENT OF PUBLIC WORKS IN DECEMBER, 1982.

BISCAYNE BAY VILLAGE AREA BY ZONES

D.R. 3.5	64.654 ACRES
----------	--------------

PHASE II AREA

Enclose the zoning history of the property on the plan:
Zoning Case No. 81-72-18 - Rocky and History to Date
1/28/82 Petitioner filed for a rezoning from R-1.1 to R-1.2 and Special Exception for a trailer park and variance to Section 41.1. To permit a 15' setback to a boundary line in line of the required 75' and from Section 41.1 to permit a setback of 15' between trailers in line of the required 25'.
10/1/82 Ordered by Board of Appeals that (a) rezoning from R-1.1 to R-1.2 and Special Exception for a trailer park and variance to Section 41.1 be GRANTED, subject to final approval and compliance with all CMO requirements; (c) that the variance to reduce the required 75' setback from boundary lines to 15' be GRANTED, but in line thereof a variance from the required 75' setback to a 60' setback be GRANTED; (d) a variance to reduce the space between trailers from 25' to 15' be GRANTED.
11/7/82 No appeal case closed.
5/2/84 CMO approved an amended plan with 100 fewer dwellings that significantly reduced the density and increased the setbacks.
5/29/84 Board of Appeals ordered that the amended plan be received into the case.
6/1/84 Chesapeake Bay Critical Area Commission legislation enacted. Interior production 3-18-181. Case reopened for amended plan.
6/25/84 Case reopening for an amended plan appealed to the Circuit Court by the Petitioner's Counsel for non-compliance with 3-2-98.110 of the Baltimore County Code.
7/25/84 Circuit Court remanded case to Board of Appeals.
7/28/84 Board of Appeals, in open hearing, ordered that the amended plan be forwarded to the Director of Planning in compliance with Bill 44-79.
8/30/84 Planning Board voted to recommend that Petitioner's request be granted for a portion of the property shown on the amended plan. The Board advised the findings of the Director of Planning that:
a. The current development proposal does not meet the criteria set forth by State Legislation governing "Critical Areas" (Section 41.1) of Chapter 79, Laws of 1981.
b. However, the portion of the property identified as Phase I is recommended for approval.
5/5/84 The Director of Planning notified the Board of Appeals of the findings of the Planning Board and included a detailed statement of the Director's findings.
9/25/84 Board of Appeals hearing on revised specific site plan and review by the Planning Board.
10/9/84 Board of Appeals ordered:
a. Phase I granted rezoning from R-1.1 to R-1.2 and S.E. 5.5 to R-1.2.5, subject to compliance with the revised site plan, pursuant to Section 2-98.110.
b. The balance of the subject property is denied a zoning reclassification without provision of a condition.
c. For all Exception for a trailer park in Phase I is granted.
d. Special Exception for a trailer park on the balance of the subject property is declared null.
e. Variations in Phase I - 75' boundary setback is reduced to 15' and distance between trailers is reduced from 25' to 15' subject to compliance with the revised site plan.
f. This order supersedes all previous orders.
1/25/85 Balance of property zoned R-1.2.5 by comprehensive map.
4/29/85 Zoning Hearing filed (without detailed review) for Special Exception for mobile home park in Phase II and variance to reduce the required boundary setback from 75' to 90' and to reduce the required 75' setback between mobile homes to 15'.
5/19/85 CMO plan approved, subject to certain revisions to L.O.D., R.R.D., etc.
